To log into Minecraft Education Edition students use the
**same login that they use at school** *to get onto our BAPS computer*

For example:

IF *Chippy had a login, he would log into MEE like this:*

*User ID: **chippy.seagull2261***

*Password: **baps***

To get passed the first screen students need to add @education.nsw.gov.au to their school login.

NO password *is needed yet*

How I log onto MEE if I had a login one

The next screen asks for students to enter their
User ID *and* **password**
just like they do at school

User ID: chippy.seagull2261

Password: baps

Students then can next screen to either

View the worlds **they have created** *or*

Create a new **world**

There are **NO JOIN WORLD** *codes.*
This was done at school during Library breaks.

PLEASE don't ask BAPS for join codes.

For students who are skilled at MEE maybe they could try **view library**

It opens **lessons** and **monthly build challenges**.

Here are the **lesson options**

COMPUTER SCIENCE   MATH   SCIENCE

LANGUAGE ARTS   HISTORY & CULTURE   ART & DESIGN
